

JEREMÍAS AGUSTÍN BANDELLI

JUNIOR FULL STACK DEVELOPER | NODE.JS | REACT | JAVASCRIPT | MYSQL

+54 9 2346 53-3182 jeremiasbandelli4@gmail.com <https://www.linkedin.com/in/jeremias-bandelli/> Calle General Frías 112, Chivilcoy

Professional Summary

Full Stack Developer with experience in JavaScript, Node.js, MySQL, HTML, and CSS, as well as knowledge of Python. I have developed dynamic web applications, including management systems and interactive platforms. I am seeking to join a team where I can contribute efficient solutions while continuing to grow and strengthen my technical skills.

Professional Experience

Water Management System

U

- Developed a web application for water delivery management and consumption tracking using JavaScript, Node.js, MySQL, HTML, and CSS.
- Implemented backend logic, database management, and user registration and administration features.
- Designed a responsive user interface and data visualization tools to improve system usability and facilitate analysis.

Customizable E-commerce Platform

- Developed a full-stack e-commerce platform with an admin panel, product and category management, and inventory control.
- Implemented shopping cart functionality, order management, payment methods, and automated WhatsApp order notifications.
- Built a sales dashboard with analytics and enabled full visual customization of the website.

Gaming News Platform

- Developed a gaming news web application using Node.js, Express.js, and MySQL for content management.
- Implemented role-based access (Admin/User), content moderation, comments, reactions, and real-time chat functionality.
- Optimized the system for performance and enhanced user interaction and engagement.

Habilidades
